

Hanxi

urban land consolidation

主要建設

道路、橋樑、雨污水下水道、公園、停車場、市場、學校、兒童遊樂場…。

Main construction

Roads, bridges, underground sewage channels, parks, parking lots, markets, schools and children's playgrounds.

重劃後效益

1. 緊鄰第六期及臺糖公司用地，原為工業區經開發後，成為優良之住宅區。
2. 大里溪整治浮覆地之開發，加強大里區之連繫，帶動地方繁榮。
3. 全區管線採地下化埋設，配合污水管分流，提升生活品質。

Consolidation benefits

1. Adjacent to the 6th consolidation plan area and Taisugar property, it was an industrial park area, but is now an attractive residential district.
2. Development of riverside sediment land of Dali River enhances the transportation network and invigorates local economic development.
3. Pipes have been laid underground throughout the area and coordinated with sewage lines to enhance living standards.
